Subject: MICROSOFT SETTLEMENT

dear sir,
i am 69 years old and have had a computer for 2 years and enjoying it.
the windows
system has enabled me to learn, i would never learn using the ms-dos
system.
if i had computers with windows system when i was in grade school i
would have been an A student !
this settlement could mean that some underprivledged students may be the
ones
that solve some of the worlds' problems.
please do not penalize microsoft for building a better mouse trap.
i beleave most people want these lawsuits to end so that microsoft and
the other
hi-tech companies can lead this economy forward.
thank you for your time,

kenneth r. bridgers
